PRESS RELEASE

GP-12 MISS FOX PLUMBING & HEATING WINS TWO RACES IN TRI-CITIES!

Sunday, July. 28th, 2013. (Kirkland, WA.) Greg Hopp in the bright yellow **GP-12 Miss Fox Plumbing & Heating** won a hotly contested Championship Final Heat on Sunday afternoon, and declared winner of the **Tri-Cities Columbia Cup Grand Prix Championship Final**. The race, on the demanding Columbia River, came down to a deck to deck match up between the **GP-17 Shock Wave** and the **GP-12 Miss Fox Plumbing & Heating**. Greg Hopp timed his start from lane 2 perfectly and got the jump he needed on U-17 driver, Dustin Echols, who had nailed down lane 1. The two boats at times were only a boat length apart, but Hopp held Echols off to earn the team its first event win of the season. The **Plumbers & Steamfitters UA Local 598** sponsored the Final Heat on Sunday, while **Frontier Communications** sponsored the Grand Prix West Final on Saturday, a race that the **GP-12 Fox Plumbing & Heating** also won.

Bob Schellhase and his team, are seeking an unprecedented third consecutive GP National High Points Championship, which they first claimed in 2011. So far this season, the GP-12 racing team has essentially won 2 out of 5 races and the Fox Plumbing & Heating finds itself still within reach of the National High Point Standings halfway through the season.

“Thanks to Fox Plumbing & Heating ,the new graphics on the boat and the truck look fantastic. Evergreen Signs did a wonderful job, and, I might add, on very short notice. Running without our big propeller in the final heat was tough, so we knew the GP-17 might have had a little top-end on us, but Greg Hopp made a perfect start and simply held Dustin Echols off and brought home a nice 1st place trophy for David Brown and his company, Fox Plumbing & Heating.” Said Bob Schellhase
